## TOOLS REQUIRED

- WIRE STRIPPERS
- WIRE CRIMPER
- #1 PHILLIPS SCREWDRIVER

Use a workbench or table of convenient height and place all components in view and within reach. The following assembly sequence is recommended:

# 1

Remove the old limit switch.

# 2

Strip wires by 1/4"

3

Crimp connectors onto the wires.

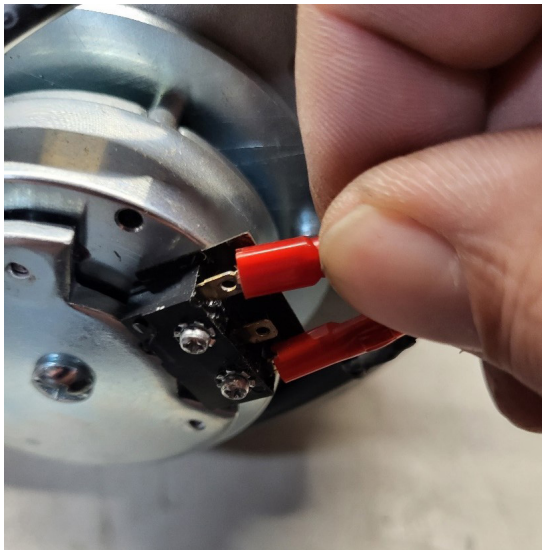

4

Attach new limit switch.

5

Attach connectors to #1 and #3 poles.
